

## Technical Supplies Order

22<sup>nd</sup> International Water Management Exhibition

**May 23-25, 2023** PVA EXPO PRAHA

**Organizer:**

Exponex s.r.o., Janouškova 2015/ 1a, 613 00 Brno, Czech Rep.

E-mail: vvesela@exponex.cz, vod-ka@exponex.cz  
www.vystava-vod-ka.cz

ID: 29222338

VAT: CZ29222338

Organizer and professional guarantor:  
Sovak CR – Water Supply and Sewerage  
Association of the Czech Republic

I hereby place a binding order for the technical supplies indicated below at the exhibition WATTER SUPPLIES-SEWERAGE 2023.

**EXHIBITOR:** \_\_\_\_\_

**STAND LOCATION:** \_\_\_\_\_

**The Order deadline date is 27. 4. 2023. The 50 % extra fee will be charged after this date.**

**The extra fee will make 100% after the assembly starts, i. e. after 20. 5. 2023.**

All the unmarked services will be automatically considered UNORDERED. All prices are given without VAT. You can find a detailed specification of services offered on the reverse side of this order form and in the Technical Conditions and Instructions for Exhibitors at the WATTER SUPPLIES-SEWERAGE Exhibition.

**THE GROUND PLAN INDICATING INTAKE POINTS MUST BE SUBMITTED AS AN INSEPARABLE PART OF THIS ORDER. FOR THIS PLEASE USE THE SPECIAL FORM SUPPLEMENT E.**

Electricity	Covered Area		Open Space		TOTAL (CZK)
	number	CZK/pc	number	CZK/pc	
230 V supply (L + N + PE) incl. electrical inspection					
	up to 3 kW – 1 socket		6 800		7 300
	up to 6 kW/230		9 400		10 200
400 V supply (3L + N + PE) incl. electrical inspection					
	up to 9 kW – 16 A socket		12 900		13 900
	up to 15 kW – 32 A socket		17 900		18 500
	up to 21 kW – 32 A socket		20 500		22 000
	up to 40 kW – 63 A socket		34 000		37 000
	Night current (refrigerator circuit)		1 200		1 450
Supply over 40 kW must be consulted on an individual basis. Each kW over and above 40 kW shall be charged.					
	Rent of the electricity distribution box for supply up to 9 – 21 kW		2 500		

Water and waste (incl. basic consumption)	number	CZK/pc		TOTAL (CZK)
Water and sewerage supply		5 900		
Water/sewerage adaptor (max. 1 per intake)		2 500		
Filling of presentation tanks and pools with water (after prior agreement with organizer)				
	- up to 1 sqm		2 400 CZK/sqm	
	- each additional sqm		300 CZK/sqm	

Internet connection	number	CZK/pc		TOTAL (CZK)
<b>Internet wired connection to 1 PC</b>		2 500		
additional connection		700		
Static IP Address		1 000		
Connection to Wi-fi for 1 device – 5 GHz band		1 000		

**Total price**

**PLEASE CONFIRM YOUR ORDER BY YOUR SIGNATURE ON THE FOLLOWING PAGE OF THIS FORM!**

We hereby declare that we have been acquainted with the Technical Conditions and Instructions for Exhibitors at the Exhibition WATER SUPPLIES-SEWERAGE and agree to them without exception. We undertake to pay all advance invoices and the final invoice, including VAT, within their due period of payment.

Stamp, date, signature of the Exhibitor

## NOTIFICATION

---

### ELECTRICITY

The price of electricity includes a 230 V or 400 V electricity supply to the stand and its use throughout the assembly and dismantling period (maximum take-off 2 kW/230 V for electric tools). It further includes the lease of the corresponding part of the hall distribution box and consumption of electricity during the course of the exhibition. A charge for electrical inspection work will be made automatically on the supply ordered. The supply of electricity to the stand itself consists of the installation of one 230 V socket (not including a distribution system on the actual stand). The power demand on the stand requested by the exhibitor must include an enumeration of the demand of all electrical appliances on the stand, i.e. lighting, hot plate, coffee maker, kettle, water heater, computer, television DVD player, exhibits, etc. The company realising the stand is responsible for electrical inspection. The unsatisfactory electrical installation will not be connected to the detriment of the Exhibitor. NOTE! If you are going to use a refrigerator on your stand, we recommend ordering a special refrigerator circuit that will not be turned off at night. The supply of electricity is not included in the price of a refrigerator circuit, but must be included in (added to) your order for total consumption of electricity.

For stands that are not ordered from Exponex s.r.o., the Exhibitor is (with exceptions permitted by Exponex s.r.o.) obliged to have its own distribution box - fitted for 5-conductor distribution or for TNS 3L + N + PE, 50 Hz. A standard 230V/16A - L + N + PE plug should be used for single-phase connection of the exhibition stand. Three-phase appliances must be fitted with the recommended 400V/32A - 3L + N + PE round plug. For the purpose of protecting Exhibition visitors from electrical injuries and for fire protection reasons it is not permissible to connect any electrical appliances of higher rated powers that do not have a separate N and PE conductor or do not have any PE conductor at all, without having the character of double insulation or where the wiring cross-section is not compliant with the installed power.

### WATER AND WASTE

Connection of a sink, i.e. ordinary taps, to a closing valve and an ordinary trap outlet with a 5/4" pipe is included in the price of "water inlet and outlet". The loan of a sink is not included in the price of water inlet and outlet. A price of 450 CZK/hour will be charged for more extensive plumbing work over and above the connection of a sink (each hour commenced will be charged as a whole hour). This service is payable in cash at the organiser's cash desk before work commences.

### INTERNET CONNECTION

Two types of Internet connection are available at the exhibition centre - a landline connection and a wireless Wi-Fi network (not available on outdoor area).

**The landline connection** is accessed by connecting to a local ETHERNET 10/100/1000 MBit/s network. Device attached must have an ETHERNET 10/100/1000 MBit/s network card with the possibility of connecting an RJ-45 connector. Speed of the connection is 4 MBit/s. This type of connection is recommended for those requiring connection stability.

The quality of the wireless Wi-fi connection depends on the number of clients connected at any given time. Unauthorised use of Wi-Fi transmitting equipment by an Exhibitor may cause line interference and a reduction to the quality of the connection. In such case, Exponex, s.r.o. will not be held responsible for the full functionality of the connection. The maximum connection speed is 1 MBit/s. Devices connected must have a Wi-Fi network card.

IP address acquisition from the DHCP server must be set following connection to the network (for both types of connection). To connect to the network, you must subsequently enter your user name and password (provided to the exhibitor at technical services during exhibitor registration) in your Internet browser.

The connection of one device is included in the basic price of the connection for both types of connection.

After you log off, you can use the same user name and password on a second device. Exhibitors who have ordered a connection (either type of connection) may place an order for the connection of an additional device at a favourable price.

The allocation of fixed addresses is, following agreement with Exponex s.r.o., possible in extraordinary cases for an additional fee of 1,000 CZK. Exhibitors requiring a connection of a higher speed should contact Exponex s.r.o.

The Exhibitor is responsible for the protection of attached devices against viruses, spyware, adware and other dangerous programs. If any such dangerous program is identified on any device connected by an Exhibitor, Exponex s.r.o. will be entitled to disconnect it without compensation until such time as the given programs have been removed by the exhibitor. The use of Exhibitors' own Wi-Fi transmitters is prohibited in order to prevent interference with the Wi-Fi network on the grounds of the exhibition centre.

Should the operation of such equipment prove essential, it must be consulted with and approved by the technician of Exponex s.r.o. No DHCP server service may be started up on any device connected.

For further details please see Technical Conditions and Instructions for Exhibitions at the Exhibition WATER SUPPLIES-SEWERAGE 2023.
